

Dear Parents,

With regard to the application of sunscreen for your child, the following procedure is recommended:

\*Parents should apply sunscreen in the morning before your child comes to camp.

\*If further application during the day is needed, parents/guardians, due to recent New York State regulations, are required to do the following:

1. Sign the permission slip on the back of this letter allowing your child to apply sunscreen when necessary.
2. Include the name of the product that is provided by the parents. This product must be FDA approved.

If a spray product is sent to school, please be advised that it will be applied outside on the playground.

Thank you for your help and cooperation.

Brown School Staff

(See permission form on the back of this letter.)
