

Employment Opportunity

Position: Full Time Secondary Mathematics Teacher

Brown School, an independent school located in Schenectady, NY is searching for a math teacher in the area of secondary education for the 2022/2023 school year.

Candidates must be well-prepared to teach multiple levels of secondary math coursework. Demonstration of strong classroom management skills, an investment in continued professional growth, comfort using classroom technology, and a commitment to promoting a diverse community is expected. The teacher is responsible for ongoing assessment and communication with parents and the head of school about student progress. The teacher is expected to work with the Upper School team, including sharing an Advisory class, and providing math support to a small group of students within our IGNITE program.

Qualifications

- Bachelor's degree required. Master's degree preferred.
- Good communication and interpersonal skills
- Excellent organizational and lesson planning skills
- Positive and effective classroom management skills

Interested applicants should submit cover letter and resume to:
employment@brownschool.org

Non-Discrimination Policy

Brown School believes in providing equal employment opportunity and does not discriminate against its employees or applicants because of race, color, religion, sex, disability, national origin, ancestry, age, marital status, sexual preference or orientation, veteran status, medical condition, or any other legally protected class or status recognized by federal, state, or local law.
